modelingQ: How do I add custom classes  
to Redux Form? Using the Redux Form  
library to create a form for Redux. How  
do I add custom classes to the form fields?  
I'm not sure where to place this code. It  
currently works fine with a type="text",  
but I want to be able to style the input

field with a classname. export default  
reduxForm({ form: 'add-account'  
})(AddAccount); A: Create a file with  
those classes: import React from "react";  
import { Field, reduxForm } from "redux-  
form"; const styles = { formGroup: {  
margin: "10px" } }; const CustomClasses  
= () => { return ( ); }; export default  
reduxForm({ form: "AddAccount",  
validate: values => { return false; }, fields:  
{ //... }, onSubmit: values => { //... }  
})(CustomClasses); Register the form  
component that you want to add the  
classes to: import React from "react";

---

```
import { reduxForm } from "redux-form";  
import CustomClasses from  
"./CustomClasses"; const AddAccount =  
({ fields }) => { return (  
e.preventDefault())}>
```
